Hardware Resources Introduces HR MAX[™] Wooden Pilaster System

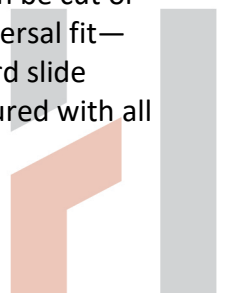

Real wood pilaster system offers customizable rollout storage and easy installation for base, pantry, and vanity cabinets.

[Bossier City, Louisiana — November 19, 2025]—Hardware Resources, a leading manufacturer of quality products for the kitchen, bath, and closet industries, proudly introduces the new **HR MAX[™] Wooden Pilaster System**, a simple yet flexible solution for adding customizable rollout drawers to any cabinet large or small.

Crafted from real wood to blend beautifully with natural cabinet interiors, the HR MAX Wooden Pilaster System allows homeowners and cabinetmakers to create adjustable storage in base, pantry, or vanity cabinets. The system's intuitive design makes it easy to reconfigure drawer heights without tools—simply unclip the drawer, reposition the slides, and reconnect the drawer.

Built for strength, versatility, and simplicity, each pilaster installs with just three screws and can be cut or stacked to fit cabinets of any height. The **patent-pending metal brackets** are designed for universal fit—compatible with HR MAX undermount and ball-bearing slides, as well as most industry-standard slide systems—and feature color-coded components for effortless installation. Kits come preconfigured with all necessary hardware for one cabinet, making ordering straightforward and efficient.

“Our HR MAX Wooden Pilaster System combines the strength and beauty of real wood with the adjustability today’s homeowners expect,” said Benjamin Bainter, Director of Functional Hardware for Hardware Resources. “It’s a durable, flexible system that enhances cabinet function without sacrificing craftsmanship.”

The HR MAX Wooden Pilaster System reflects the brand’s ongoing commitment to innovation that matters—engineering products that make installation and everyday use easier. Like all HR MAX products, it’s backed by a lifetime warranty and supported by the knowledgeable Hardware Resources sales and customer service team that’s ***Built Around You.***
