FOR IMMEDIATE RELEASE

NORTHPOINT CABINETRY INTRODUCES NEW SHELL WHITE FINISH

A warm white hue that pairs beautifully with natural wood and accent colors

[BOSSIER CITY, LOUISIANA – APRIL 30, 2026] – NorthPoint Cabinetry®, a leading brand of quality cabinets from Hardware Resources™, has introduced Shell White to its Catalina Shaker-style cabinet line. Shell White is a soothing, soft-white finish inspired by the natural tones of weathered seashells. It maintains the light and airy experience that white cabinets bring to the space but balances the starkness of a bright white with a subtle earthy warmth.

Shell White cabinets pair beautifully with other NorthPoint Cabinetry finishes including Sandstone, Slate, and new accent finishes Sage Green, and Nautical Blue to create a personalized two-tone look. Its versatile character makes Shell White an attractive option for dealers, designers, and builders who want an alternative to stark white cabinets anywhere in the home

NorthPoint Cabinetry can be ordered fully assembled or QuickBuild®. QuickBuild cabinets are engineered to be easy to assemble in minutes. Both assembled and QuickBuild cabinets feature solid wood construction, dovetail drawer boxes, and clean interiors free of fasteners. In-stock cabinets ship fast from strategically located warehouses across the country.

Learn more about the new Shell White finish and the complete line of NorthPoint Cabinetry at NorthPointCabinetry.com.
