embraces understated elegance — soft rounded forms and refined detailing draw the eye across each knob and pull with quiet confidence. The **Califon Suite** offers a more architectural aesthetic defined by linear proportions. Each knob and pull within the suite delivers a tailored look through rectangular features that catch the eye. The **Lavington Suite** offers modern sensibility, with knobs and pulls that pair functional embellishments with an ease of grip, bringing sophisticated utility to kitchens, baths and living spaces.

"With Pemberton, our intention was to create a collection rooted in timeless design while offering designers the freedom to express different aesthetics," notes Christine Zimmer, Senior Director of Decorative Hardware. "Bayridge, Califon and Lavington each embody a unique design language, demonstrating how subtle nuances among each suite allow homeowners to create spaces that feel both timeless and uniquely their own."
